Scan Login

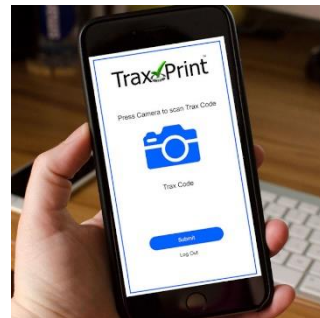

The Ultimate in Web Sign In Security

Trax Sign now offers the ultimate form of protection for logging in to secure websites.

With the Trax Sign system your website has no input fields , therefore no access points for hackers to use brute force password tools to enter the site.

- Government Sites
- Corporate Sites
- Financial Sites
- Medical Sites
- Defence Systems
- Social Media Sites

Trax Sign Process

- We place a unique one time Trax code on the sign in page of any website
- Use our free to download App on any smartphone.
- The scanner is then used to scan the Trax code.
- The users password is entered on the mobile phone scanner and submitted.
- If the password entered is correct the page logs in.

With multi-layer encryption and triple level validation the closed loop Trax Sign system is the ultimate login system.
